Warewashing: Bar Program

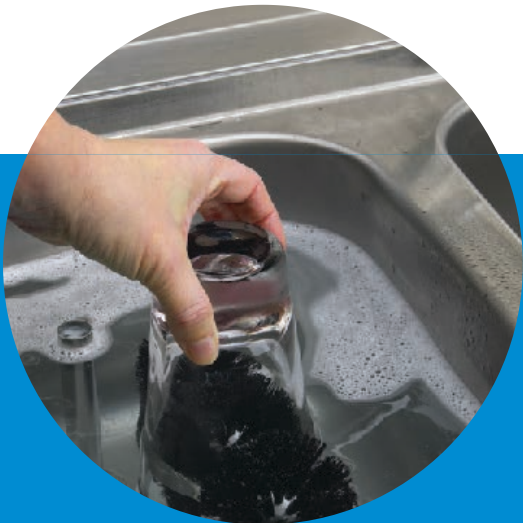

NO RESIDUE

CONTROL COSTS

BETTER TASTE

Advantages of the Keystone Bar Program

- No-residue washing and sanitizing solutions for sparkling glassware
- Water filtration for better-tasting mixed drinks, soda and ice
- High-performing, multi-surface cleaners help make a great first impression
- Specialty tools help keep behind-the-bar operations running smoothly

Beverages Look and Taste Better Without Residue

PROBLEM

The head of foam on beer collapses easily as a result of food soils and chemical residues on unsanitary glasses. Using detergent not specifically made for manual bar glass washing may result in poor beverage quality and noticeable chemical residue.

SOLUTION

Bar Glass Detergents are specially formulated to leave no visible detergent residue in both hot and cold water.

Bar Glass Sanitizers are EPA-registered food contact surface sanitizers and won't impact smell or taste.

MACHINE BAR PROGRAM
