

KEEP YOUR SOFT SERVE MACHINE  
CLEAN AND SANITIZED

## Keystone Triplet Plus

- ▲ Quickly removes fats and wax.
- ▲ Emulsifiers lift and suspend oils.
- ▲ Dissolves milkstone and protein buildup.
- ▲ EPA registered.

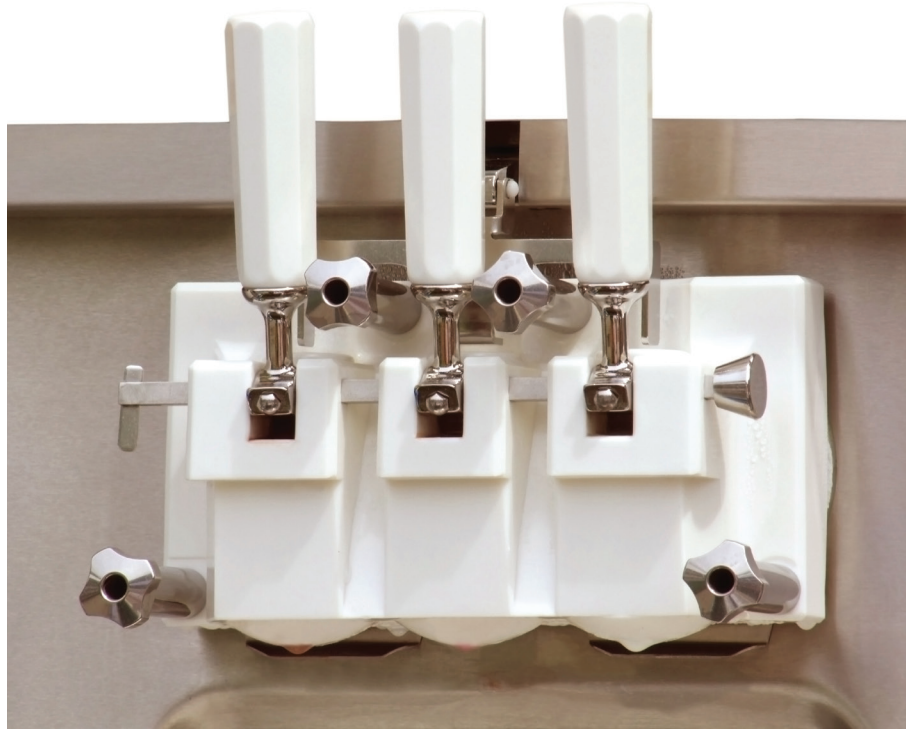

Effective on dairy fats, wax  
and protein build-up in soft  
serve machines.

**Keystone Triplet Plus** is a soft serve machine cleaner and sanitizer that offers powdered cleaning action. Detergent quickly removes fats and wax while emulsifiers lift and suspend oils. The sequestering agents dissolve milkstone and protein buildup. EPA registered.

## DIRECTIONS:

1. Remove soft serve mix from the machine. If local health codes permit rerun, place mix in sanitized rerun container and store in refrigerated cooler.
2. Rinse the interior of the machine (cylinder, feed tubes, etc.) by activating the "Wash" cycle and drawing through 2 gallons of lukewarm water. Repeat the rinsing procedure until the water runs clear. Turn the machine to the "Off" position.
3. Dissolve 1 packet of Triplet Plus in 2-1/2 gallons of lukewarm water.
4. Clean the interior of the machine by activating the "Wash" cycle and filling the cylinder and feed tubes with the Triplet Plus solution. Turn the machine to the "Off" position. Brush clean the feed tube and inlet hole. With the cleaning solution in the cylinder, reactivate the "Wash" cycle and allow to remain on for 5 minutes.
5. Drain the solution from the machine. Turn machine to the "Off" position.
6. Remove and completely disassemble all machine parts (doors, blades, pump, etc.).
7. Brush wash all disassembled parts in a suitable detergent in a clean sink. Rinse thoroughly.
8. Sanitize parts by immersing for at least 1 minute in a fresh Triplet Plus solution (1 packet dissolved in 2-1/2 gallons / 9.5 liters of lukewarm water). Allow to dry.

## ESPRESSO MACHINE DIRECTIONS:

### Milk Line Cleaning of Automatic Espresso Machine

1. Prepare a solution of Keystone Triplet Plus by dissolving 1 packet in 2-1/2 gallons of lukewarm water.
2. Follow equipment manufacturer's instructions to clean milk lines with Triplet Plus solution.
3. Drain the milk line.
4. Flush with more fresh Triplet Plus to sanitize.
