# DuraLoc™ A Revolution in Kitchen Floor Cleaning Tools

To get the job done right, you need the proper tools. That's why Ecolab® brings you a revolutionary new line of long-lasting, interlocking kitchen floor cleaning tools. DuraLoc™ tools and Ecolab floor cleaners work together to give you the ultimate clean in less time.

## Challenges:

### Poor-quality tools deliver poor-quality clean

- Associates don't use broken, dirty tools that are ineffective
- Even the best floor cleaners don't work properly if not applied and deck brushed properly
- Cleaning tools are usually not stored in a neat, orderly fashion

## Solutions:

### The right tools mean superior clean

- Quality tools allow you to get the best from your cleaning products
- The best tools improve the chance your associates will follow correct procedures
- Durable, long-lasting tools lower the overall cost of getting floors clean

**DURA LOC™**

# One Handle for Every Interlocking Tool

Working with old mops and brooms makes cleaning ineffective. So DuraLoc™ Tools feature a revolutionary interlocking tool head system that allows you to clean floors thoroughly, yet simply and efficiently.

An A-frame universal insert holder locks onto the DuraLoc™ handle, and the amazingly simple interlocking system allows tool heads to be easily switched out.

- Tool heads slide easily and lock securely into place
- Inserts are released with the simple press of a button
- Tool heads can be quickly changed without getting hands dirty
- Only the worn mop, broom and squeegee heads need to be replaced

# DURA LOC™

## Reduce the risk of cross-contamination with the right color

DuraLoc™ solves the problem of cross-contamination and zone isolation with five bright color options. Color sleeves lock over the handles to ensure a perfect match to the right set of tool heads. This ensures the tools are used in exactly the right place, keeping your environment free of unnecessary contaminants.

# DURA LOC™

## Strength That Lasts

Take a closer look at what makes DuraLoc™ tools so durable. Made with materials that are virtually indestructible, they'll outlast any traditional mops and buckets by years. Built from lightweight aluminum and plastic overmold, they'll stand up to any cleaning challenge you can throw at them. Plus, the DuraLoc™ handle and universal insert holder each come with a 3-year warranty.

### So what makes DuraLoc™ so strong?

The plastic handle overmold adds extra strength and durability to the tool

The universal insert holder screws onto the handle, creating a two-point connection with wide openings and robust threads

The arched design of the holder equally distributes stress across the top of the insert adding strength and durability

# DURALOC™

## It's Like Nothing You've Ever Seen Before

### DURALOC™ DECK BRUSH

Features strong polyester bristles to scrub out tough spots. Extra stiff center bristles make it easier to scrub stains out of grout. Screws onto the lightweight or more robust overmold handle, creating a secure two-point connection with wide openings and robust threads. Sturdy, arched design equally distributes stress across the top of the tool head.

**\$18.54 each.**

- #61703-01-00 Blue
- #61703-02-00 Yellow
- #61703-03-00 Red
- #61703-05-00 Green
- #61703-07-00 Black

### DURALOC™ OUTDOOR SWEEP

The perfect tool for heavy-duty sweeping jobs including parking lots and outdoor walkways, the DuraLoc Outdoor Sweep features durable polyester bristles that last longer than traditional polypropylene bristles. The wide surface area allows for faster, efficient sweeping of large spaces. Sturdy A-frame design provides superior durability.

**\$22.95 each.**

- #61705-01-00 Blue
- #61705-02-00 Yellow
- #61705-03-00 Red
- #61705-05-00 Green
- #61705-07-00 Black

## One Handle for Every Interlocking Tool

### DURALOC™ 54" STRAIGHT HANDLE, OVERMOLD

Constructed of lightweight aluminum, this extremely durable handle features a sturdy plastic overmold for superior wear resistance. Features a rounded, ball-shaped top point that provides a more comfortable, ergonomic grip and snaps easily into the DuraLoc Tool Holder Hanging System.

**\$19.68 each.**

**#61709-00-00**

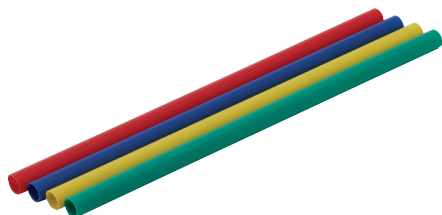

### DURALOC™ 54" STRAIGHT HANDLE, LIGHTWEIGHT

Constructed of lightweight aluminum, this durable handle provides a lightweight alternative for faster-paced operations such as quick service restaurants. Features a rounded, ball-shaped top point that provides a more comfortable, ergonomic grip and snaps easily into the DuraLoc Hanging Tool Holder System.

**\$11.95 each.**

**#61709-01-00**

### DURALOC™ ZONE COLOR SLEEVE

Color-Coded Sleeves help simplify inventory management and provide an effective means for zone isolation to help prevent cross-contamination. Color sleeve locks over the handle to ensure a perfect match with the corresponding colored tool heads.

**\$5.95 each.**

- #61707-01-00 Blue
- #61707-02-00 Yellow
- #61707-03-00 Red
- #61707-05-00 Green

The Big Dipper™  
is proven to increase  
deck brushing time by

**70%**

**The Big Dipper™ is a never-before seen accessory fitted to the deck brush that has been proven to increase deck brushing time by 70%.\***

When the deck brush is dunked into the front chemical bucket, the Big Dipper™ fills automatically with cleaning solution. It applies and agitates the floor cleaner in one simple step, helping ensure proper procedures are followed.

- Solution dispenser ensures the correct amount of solution is applied
- Strong polyester bristles scrub out tough spots
- Extra-stiff center bristles make it easier to scrub stains out of grout

The DuraLoc™ Mop Brush takes mopping to a whole new level. It attaches easily to the universal insert holder over the mop. Simply flip the mop over to scrub tough spots.

- Strong polyester bristles target stubborn spots
- Low-profile placement makes it ergonomically effective to flip between mop and brush

**See the Big Dipper in action  
at [www.bit.ly/duraloc](http://www.bit.ly/duraloc)**

\*Based on observing times for six different cleaning employees washing two different floor areas.

## The Big Dipper™ It's a Better Way to Scrub

Strong polyester bristles scrub out tough spots

Solution dispenser ensures the correct amount of solution is applied

Extra-stiff center bristles make it easier to scrub stains out of grout

### DURALOC™ DECK BRUSH

The Universal Insert Holder screws onto DuraLoc Handles, creating a sturdy two-point connection with a wide opening and robust threads. Its arched design equally distributes stress across the top of the tool head inserts. Use only with DuraLoc broom, squeegee and mop inserts.

**\$18.54 each.**

- #61703-01-00 Blue
- #61703-02-00 Yellow
- #61703-03-00 Red
- #61703-05-00 Green
- #61703-07-00 Black

### DURALOC™ BIG DIPPER™

The Big Dipper is a revolutionary accessory to the DuraLoc deck brush that helps ensure correct dispensing of floor cleaning chemical during the deck brushing process. Dunk the deck brush into the front chemical bucket and the Big Dipper fills automatically with cleaning solution. As the brush is scrubbed back and forth, the Big Dipper applies and agitates the floor cleaner in one simple step, saving time and helping ensure proper procedures are followed.

**\$8.95 each. # 61703-00-00**

Tool heads slide easily and lock securely into place, and the inserts are released with the simple press of a button.

## DURALOC™ UNIVERSAL INSERT HOLDER

The Universal Insert Holder screws onto DuraLoc Handles, creating a sturdy two-point connection with a wide opening and robust threads. Its arched design equally distributes stress across the top of the tool head inserts. Use only with DuraLoc broom, squeegee and mop inserts.

**\$4.96 each.** #61713-00-00

Denotes tool heads that require the DuraLoc Universal Insert Holder

## DURALOC™ SQUEEGEE INSERT, MOSS FOAM

Moss Foam Squeegee Insert slides easily and locks securely into the DuraLoc Universal Insert Holder. Frame features a sturdy and durable polypropylene construction. Pair with DuraLoc Overmold Handle or DuraLoc Lightweight Handle.

**\$11.95 each.**

- \$5.95 each. #61701-01-00**

## Removable Dump Bucket Means Safer Cleanup

The new DuraLoc™ mop bucket is so innovative it's amazing. Separate compartments, keep dirty water isolated from cleaning solution and help reduce contamination for a better clean.

The front compartment holds 17 quarts of cleaning solution and has a curved bottom to accommodate the Big Dipper™.

The rear water bucket is completely removable and can be lifted out and easily emptied, eliminating strains and accidents for a safer cleanup.

Mop wringer is completely removable.

Rear compartment lifts out for easy emptying.

Curved bottom allows easy filling of Big Dipper™.

Handle can be switched for right- and left-handed workers.

Clip keeps tool handle in place to make transport easy.

Hook keeps caution signs within easy reach.

### DURALOC™ DUAL CAVITY MOP BUCKET

This innovative mop bucket features two separate compartments, one for cleaning solution and one for dirty water, helping to eliminate contamination for a better clean. The front compartment holds 17 quarts of cleaning solution and features a curved bottom to accommodate the Big Dipper™. The rear Mop Wringer and Bucket are completely removable and can be emptied easily, helping eliminate strains and accidents for a safer cleanup.

- Durable down-press wringer with large opening
- Superior, heavy-duty construction

**\$139.65 each.**

Helps eliminate strains

## ... and When You're Done, Just Leave It All Hanging

When the job is done, keep all the tools organized and off the floor with the unique snap-in storage system. The double hangers slide easily onto a 24" storage wall mount that holds handles at different heights. The single handle holder is designed to keep frequently used tools where you need them the most.

- Rounded handle tops snap in and hold in place securely
- Slide-in holders allow for customization of tool organization
- Hanging tools dry faster, which helps eliminate slick spots and mold buildup in storage areas

# DURALOC™

## DURALOC™ 24" TOOL HOLDER SYSTEM

Hanging your tools extends the life of the tool heads. Keep all DuraLoc tools organized and off the floor with this unique snap-in storage system. The double-hanger pucks slide easily onto a 24" storage wall mount that holds handles at different heights.

**\$27.00 each. # 61710-00-00**

## DOUBLE HANGER

Conveniently holds DuraLoc handles on the DuraLoc Tool Holder System rack. Rounded tops on DuraLoc handles snap in easily and are held securely in place. This holder slides into the Tool Holder Rack at adjustable heights.

**\$6.95 each. # 61711-00-00**

## SINGLE HANGER

Conveniently holds frequently used DuraLoc tools where you need them most. Mounts directly on a wall. Rounded tops on DuraLoc handles snap in easily and are held securely in place.

**\$5.95 each. # 61712-00-00**

# Assembly and Care Instructions

## DuraLoc Dual Cavity Mop Bucket Assembly Instructions

To secure DuraLoc Dual Cavity Casters onto bucket, flip DuraLoc Dual Cavity Mop Bucket upside down. Place casters in the holes and tap or push until they snap into position.

Place the gray removable insert bucket into the back of the dual cavity bucket.

Place the DuraLoc Mop Bucket Wringer on top of the gray removable insert bucket.

Secure the DuraLoc Dual Cavity Mop Bucket Wringer handle with the enclosed screw and fastener. Place the angled portion of the handle facing inward. Insert the screw so that the nut is facing away from the mop bucket wringer pocket.

Handle can be assembled to accommodate left- or right-handed employees.

Place the removable wet floor sign handle hanger on the back of the gray portion of the wringer.

Attach the DuraLoc Mop Clip on the front of the Mop Bucket Wringer with the two remaining screws. Do not over tighten screws.

## Moss Foam Squeegee, Rubber Squeegee, Angle Broom and Mop Assembly Instructions

Attach the Universal Insert Holder onto the Handle by aligning the grooves with the slots. Twist the large connector to secure.

Slide the Squeegee, Mop, or Broom into the holder until it snaps into place.

Press the Ecolab lever and slide Squeegee, Mop or Broom out to remove.

## Big Dipper Deck Brush Assembly Instructions

1 Snap the plastic DuraLoc Big Dipper insert onto the DuraLoc Universal Insert Holder.

2 Place the end of the DuraLoc Over-Mold Handle on the ground and assemble at eye level. Line up grooves inside the Deck Brush Assembly with the DuraLoc Over-Mold Handle.

3 Twist the large connector to secure.

## Mop Brush Attachment Assembly Instructions

1 Insert the DuraLoc Mop Brush onto the Universal Insert Holder by lining up the circle and the 2 holes. Attach the Universal Insert Holder to the DuraLoc Light Weight Handle by placing the end of the handle on the ground and assemble at eye level.

2 Line up grooves inside the Universal Insert Holder with the Universal Handle and twist the connection to secure.

3 Slide the mop head over the razor-style holder until the mop snaps into place.

## DuraLoc Care Instructions

Following these basic instructions will maximize the life of your Tools

1 Store tools properly in DuraLoc Storage Hanger to ensure that Tool Heads do not touch floor when stored.

2 Rinse Mops, Squeegees and Deck Brushes after every use.

3 Discard and replace Tool Heads when worn.

Developed specifically to be used with Ecolab® floor cleaning solutions

Insert holder creates a strong, two-point connection

Big Dipper™ applies floor cleaner in one simple step

# DURA LOC™

## It's Like Nothing You've Ever

DuraLoc™ is a complete system of interlocking, interchangeable floor cleaning tools linked together with a unique storage system. Why replace the entire tool when you can just replace the part of the tool that gets worn out with use? DuraLoc's patented Big Dipper deck brush applies and agitates floor cleaner in one simple step, saving you time and ensuring proper procedures are followed.

Food Safety Specialties Inc.

Unique snap-in storage system

Rear compartment lifts out for easy emptying.

## Seen Before

**Sanitizing Wash 'n Walk™ and DuraLoc™ give you unsurpassed cleaner, safer kitchens and compliant employees –in less time!**

- Enzymatic floor cleaner formulated to cut kitchen grease, reducing risk of slips and falls
- EPA registered sanitizer kills **99.9%** of dangerous bacteria on floors and in drains, reducing the risk of cross-contamination by killing pathogens at their source
- The use of cold water and no-rinse clear contributes to water, energy and labor savings. An average kitchen can **save up to 5,500 gallons of water per year.**
- Use in drains reduces the feeding and breeding grounds for fruit flies and helps eliminate malodor causing bacteria often found in drains.
