Your operation is set up to run pots and pans through the dishmachine. It saves time and labor. However, rewashing pots and pans is a time-consuming, costly expense to your dishwashing operation. Remove greasy, baked-on soils in one pass by soaking them in Apex Pot and Pan Soak.

DIRECTIONS:

1. Fill your soaking sink or tub with warm water. Push dispenser button to dispense Apex Pot and Pan Soak. Water will turn orange.
2. Completely submerge baked-on wares and soak for 15-20 minutes.
3. Remove ware and place on dishmachine rack. Do not rinse.
4. Run the rack through the dishmachine to wash and sanitize with an EPA registered sanitizer when chemical is required.

FLEXIBLE WAREWASHING SOLUTIONS

PRODUCT	PICK CODE	SUPC CODE	PACK SIZE
Apex Pot and Pan Soak	6100089 6100090	8223515 8223527	3 - 5 lb 6 - 5 lb
Keystone Apex Pot and Pan Soak	6100131	7807892	3 - 5 lb

IMPROVED RESULTS

Without soaking, hard-to-remove soil may require two to four runs through the dishmachine to clean.

Apex Pot and Pan Soak loosens tough soils, delivering superior results in one wash.
