

Ecolab® CarePod™ Basics First Aid Cabinet

Compliant, compact, and cost-effective

Every foodservice operation, regardless of size or number of employees, is required to have an OSHA-compliant first aid kit. For some operators, this can be a challenge. Compliant cabinets can take up more wall space than is available, and smaller kits often fall short of compliance or contain just enough product to meet the minimum standard.

CarePod Basics comes fully stocked with all the first aid supplies foodservice operators need in a compact, space-saving size.

Ecolab Sysco CarePod Basics First Aid Kit
SUPC #7101296

- Contains every first aid product required for restaurants and foodservice operations per OSHA/ANSI standards ¹
- Each product has a specific location to keep the cabinet organized, and supplies easy to find
- Color-coded packages with descriptive images make language-free identification easy
- Constructed from lightweight yet durable plastic that will never corrode or rust
- Can be wall-mounted or used as a portable response kit
