

PROTECT YOUR GUESTS,  
EMPLOYEES AND REPUTATION

When it comes to food safety,  
there's no room for error.

#### Norovirus: Need-to-know information

- ▲ A leading cause of foodborne illness traced back to restaurants
- ▲ Difficult to kill and can spread rapidly in a large population
- ▲ 61% of outbreaks from food contamination occur in restaurants (Center for Disease Control)

Protect your reputation and your bottom line  
with a Keystone partnership.
